Invitation

KJF International Conference on Organic Materials for Electronics and Photonics 2022 (KJF-ICOME 2022) will be held on August 31 to September 3, 2022 in Jeju island, Korea. KJF started with members of 30 in 1989. Now this forum is surprisingly expanded as the international conference for the exchange of information about recent in organic materials for electronics and photonics. Lectures and posters will provide a motivation for deep discussion about the topics of the conference. We are fully confident that all participants will benefit a great deal from this opportunity of scientific exchange provided by KJF 2022.
